

Dr. Nandita Srivastava

Senior Professor

Udaipur Solar Observatory (USO)

Physical Research Laboratory

Udaipur

E-mail: nandita@prl.res.in

Telephone: +91-294-2457211

Research Interests

- CME initiation, propagation and consequences
- Solar and Heliospheric physics research using Aditya-L1 observations
- Activation and eruption of solar filaments
- Nature of interaction of coronal mass ejections
- Space weather forecasting

Academic Qualifications

- 1983-1985 B.Sc. (Physics), G. G. D. University, Bilaspur
- 1985-1987 M.Sc. (Physics), Pt. Ravishankar Shukla University, Raipur.
- 1988-1993 Ph.D. (Physics), Udaipur Solar Observatory, PRL, Udaipur

Professional Experience

- Jan 2020-present, Senior Professor, USO, Udaipur, India
- Apr 2015-Dec 2022, Deputy Head (Admin), USO, Udaipur, India
- Jul 2014-December 2019, Professor USO, Udaipur, India
- Jul 2009-Jun 2014 Associate Professor, USO, Udaipur, India
- Jan 2004-Jun 2009 Reader, USO, Udaipur, India
- July 2000- Dec 2004 Scientist SD, USO, Udaipur, India
- Feb 2000-June 2000 Visiting Fellow, ESTEC, Noordwijk, The Netherlands
- Aug 1997-Jan 2000 PDF, Max-Planck Institut Fuer Aeronomie, Germany
- Aug 1995-Jun 1997 Visiting Scientist, National Institute for Space Research, Brazil
- Sep 1993-Jul 1995 Post Doctoral Fellow, USO-PRL, Udaipur, India
- Feb 1988-Aug 1993 PhD Student USO-PRL, Udaipur, India

Fellowships Awarded

1. Third World Academy of Sciences Fellowship for collaborative visit to Huairou Solar Observatory, China for 3 months during September-December 1994 to work with the Chinese Solar Telescope
2. Awarded, The National Council of Scientific and Technological, CNPq fellowship as visiting Scientist to the National Institute for Space Research, São José dos Campos, Brazil, 1995-1997
3. Awarded Max-Planck Society fellowship, to work at Max-Planck Institut Für Aeronomie, Germany, August 1997- February 2000.
4. European Space Agency Visitor fellowship, to work at ESTEC, The Netherlands, March-August, 2000
5. Visiting Scientist fellowship, High Altitude Observatory, HAO, Boulder, Colorado, USA, July 2003
6. Visiting fellowship, Max-Planck Institute for Solar System Research, Germany, August-October 2007

Awards and Honours

1. **Stefan Hepites Award of the Romanian Academy for group work on “Genesis and evolution of CMEs”, 2013**

The work done by Prof. Nandita Srivastava in collaboration with Romanian Scientist Dr. Marilena Mierla, focused on 3D reconstruction of solar eruptions also known as Coronal Mass Ejections or CMEs, using NASA’s twin STEREO spacecraft data. The results led to significant improvement in

the prediction of the arrival time and the speeds of CMEs at Earth, which has major implications for forecasting of space weather of Earth. The collaboration resulted in several publications in high-impact factor journals. She also jointly organized a special session at the European Geophysical Union on “The three-dimensional morphology and dynamics of CMEs” in 2009. This was followed by bringing out a special issue of the Journal of Atmospheric and Space Physics in 2011 (Vol 73, Issue 10) on the same topic.

2. ISRO Team Excellence award for Multi-Application Solar Telescope (MAST) in 2015

Prof. Nandita Srivastava was the Project Coordinator for MAST, the modern 50 cm optical solar telescope of the Udaipur Solar Observatory, Physical Research Laboratory, which has been installed on the island in Lake Fatehsagar. As the project coordinator, she was responsible for various aspects of the project involving the Detailed Design Review meeting with PRL, ISRO and other agencies with the Advance Mechanical & Optical Systems team from Belgium. She was involved in detailing the specifications of the MAST, preparing the User Requirement Document, installation of the telescope, and verification of the specifications, post installation.

3. Received Certificate of Distinguished Contribution as a distinguished speaker in the plenary session at the European Space Weather Week 2025, Umea, Sweden, October 2025

4. Received Top View Certificate from Space Weather journal of, American Geophysical Union in May 2026 for two research papers published in 2024.

Travel Grant awards

1. Recipient, IUPAP (International Union of Pure and Applied Physics IUPAP) travel grant for Women in Physics, 2005 & in 2013 (twice)
2. Recipient, Kieth Runcorn Travel Award to attend the EGU General Assembly in Vienna, 2009 and 2010 (Twice)
3. Recipient of Established Scientist's Travel Award (ESTA) to attend the European Geoscience Union meeting Vienna, April 2015.
4. Guest Investigator grant on ESA's Proba2 solar mission, 2011, 2013, 2017-2018, 2023 (four times)
5. National Merit Certificate from M. P. Board, Bhopal, India in -1982

Solar Observational Experience

- Ground based solar observations from with small field moderate resolution solar solar telescope and & full disk Razdow telescope in H-alpha during Ph.D. at Udaipur Solar Observatory for solar dynamic phenomena studies.
- Involved in installation of a Multi-slit Spectrograph in H-alpha for measurement of radial velocities in solar prominences (part of post-doctoral work at Udaipur Solar Observatory).
- LASCO Science Planner at EOF, NASA/GSFC during October 1997, USA to plan scientific observations with LASCO instrument on the spacecraft SOHO for making coronagraphic observations in the range from 1.1 - 32 solar radii in Fe XIV, Fe X emission lines & white light.
- Coordinator, SOHO Joint Observation Proposal 114: Nov 1999 on Solar Filament dynamics
- Collaborative observational project with High Altitude Observatory (HAO): kinematics of mass ejections in the lower corona using MARK IV coronagraph data.
- Indian CAWSES project: Coordinator for the national observing campaign of the Working Group 2 for solar observations at USO, held during March 15-April 30, 2006.
- Coordinator for Collaborative Observing Campaign with Hinode (Solar B) and other ground-based observatories during April 4-14, 2007
- Scientist –on-site for the Observation Campaign with the Dutch Open Telescope August 8-27, 2010, La Palma, Canary islands, Spain, for observations of solar filaments/prominences.

Recognitions

Editorial Work

1. Member, Editorial Board, Journal of Astrophysics and Astronomy, two terms (2020-2022), 2023-2025, Extended until Dec 2026
2. Associate Editor, Stellar & Solar Physics section of Frontiers in Astronomy & Space Sciences, since May 2022
3. Associate Editor of the Journal of Space Weather and Space Climate (JSWSC) since Nov. 2022
4. Regular Reviewer for Journals: Space Weather journal of AGU, Solar Physics, Current Science, Astrophys, J, Journal of Astrophysics and Astronomy, Annales Geophysicae, J. Geophys Research. Advance in Space research etc

International Recognition

1. Member, Officer Nomination Committee, SCOSTEP, May 2025- Apr 2029
2. Chair, SCOSTEP Awards Selection Committee 2024
3. National Coordinator (India), International Space Weather Initiative (ISWI) programme, since January 2022
4. Member, International Space Weather Initiative (ISWI) monthly webinar series Committee, initiated in April 2022
<https://www.youtube.com/playlist?list=PLaOqa4cng0GF3cKuj6Yz5kqG1BQ-Akkhr>,
5. Science Discipline Representative of SCOSTEP since 2020
6. Member, SCOSTEP Awards Selection Committee 2023-2027
7. Reviewer for space weather projects submitted to the Austrian Science Fund, Belgian Science Foundation, and Czech Science Foundation, Ministry of Education of the Slovak Republic and of the Slovak Academy of Sciences (VEGA), Romanian Academy of Sciences
8. Steering Committee Elected Member, IAU Division E on Sun and Heliosphere two terms (2015-2018) & (2019-2021)
9. Member, International Astronomical Union, 2013
10. Member, Committee for Basu Award by the American Geophysical Union, 2008-2009

Representation in National forum

1. PRL Coordinator for RESPOND for ISRO-RESPOND projects in Space Sciences since 2016
2. Member, Research Advisory Committee, Indian Institute of Geomagnetism, Mumbai, 2023-2026
3. Member, Vainu Bappu Award Committee of the ASI, 2024
4. Member, Aditya-L1 Time allocation Committee of ISRO, November 2023
5. Chair, PRL ka Amrut Vyakhyan Committee, completed 116 lectures by distinguished speakers from different fields.
6. Served as a member of the department promotion committees of IUCAA, IIA and ARIES
7. Associate Faculty, Center for Computational Space Sciences, Center of Excellence, IISER, Kolkata, since 2013. <http://www.cessi.in/>
8. Reviewer : KERALA STATE COUNCIL FOR SCIENCE, TECHNOLOGY AND ENVIRONMENT, DSTproject
9. PhD thesis examiner for IIA, Bangalore, IIG, Mumbai, IIT Indore, ARIES, Nainital, IISER, Kolkata, IIG, Mumbai
10. Member, Scientific Advisory Committee for Astronomy and Astrophysics, ARIES, Nainital 2018-2021
11. Elected Councillor of the Executive Council, Astronomical Society of India for 2010-2012
12. Member, Project Management Board, National Large Solar Telescope (NLST), Bangalore India

Ph.D Supervision (5 Indian and 1 Uzbekistan)

1. **Dr. Anand D. Joshi**, “Morphology and Dynamics of solar prominences”, (July 2006-July 2010), Presently at NAOJ, Mitaka, Japan
2. **Dr. Wageesh Mishra**, “Evolution and Consequences of Coronal Mass Ejections in the Heliosphere” (February 2011-March 2015), Presently, Assistant Professor, Indian Institute of Astrophysics, Bangalore
3. **Dr. Ranadeep Sarkar**, “Solar Origin of Space Weather” (July 2016- June 2020), Presently at University of Helsinki, Finland
4. **Mr. Suvadip Sinha**, “Investigating solar drivers of space weather”, (jointly supervised with Dr. Dibyendu Nandy, IISER Kolkata) (Awarded February 2023)
5. **Dr. Zavkiddin Mirtoshev**, “Coronal mass ejections: their solar cycle variation and impact on space weather”, Samarkand State University, Uzbekistan (Co-supervisor) (Awarded December 27, 2022)
6. **Mr. Sandeep Kumar**, “Heliospheric Propagation of Solar Wind and Coronal Mass Ejections”, Awarded 19 Dec 2025 by IIT Gandhinagar)

Post-Doctoral Fellows

1. **Dr. Anand D. Joshi** (December 2011-November 2012)
2. **Dr. Wageesh Mishra** (March-May 2015), Presently, faculty at Indian Institute of Astrophysics, Bangalore
3. **Dr. G. Sindhuja** (July 2016-October 2017), now at GSFC/NASA, USA
4. **Dr. S. S. Rao** (November 2021-October 2024), now a faculty at Patna University
5. **Dr. Debesh Bhattacharjee**, (October 2025-ongoing)

Supervision of Foreign Students

1. **RTF-DCS Fellow of the NAM: Mr. Zavkiddin Mirtoshev** (January-July 2017), Samarkand State University, Uzbekistan (*Awarded best researcher of the University in 2018*)
2. **Aditya Jaypal**, The University of Waterloo, Canada, “Using Multiple-Point Observations and Analyses of ICMEs to Test Existing Interplanetary Propagation Model (*First year B. Sc Student for summer project*). 2018
3. **Zavkiddin Mirtoshev**, Co-Supervisor for PhD thesis at Samarkand State University, Uzbekistan on “Coronal Mass Ejections: their solar cycle variation and impact on space weather”, December 2022
4. **COSPAR visiting fellow, Mr. Diyorbek Pulatov** of Samarkand State University, Samarkand, (19 Sep -1 Nov2025)

Research Highlights

1. Research on CME rotation highlighted in Solar Nuggets on 30 Dec2024, Sandeep Kumar and Nandita Srivastava
https://heliowiki.smce.nasa.gov/wiki/index.php/Unveiling_CME_Dynamics:_Rare_Rotations_of_CMEs_in_the_Heliosphere
2. Research paper co-authored in Palmerio et al. 2021 has been highlighted as press releases: <https://blog.frontiersin.org/2021/07/21/astronomy-space-sciences-predicting-stealth-coronal-mass-ejections/>
<https://frontiers.altmetric.com/details/107638162/news>
<https://www.combelgium/178921/belgian-scientists-help-develop-new-method-to-predict-hidden-solar-storms/> <https://www.issibern.ch/spotting-hard-to-detect-coronal-mass-ejections-from-the-sun/>
3. Research paper co-authored in Mishra et al. 2021 highlighted by Department of Science and Technology, “Study probes how ejections from Sun’s corona influence space weather predictions crucial for monitoring satellites
<https://pib.gov.in/PressReleasePage.aspx?PRID=1756714>
4. Research paper co-authored in Mishra et al 2021 highlighted by Department of Science and Technology, as “Smaller solar storms in the last decade baffles scientists
”<https://pib.gov.in/PressReleaseDetail.aspx?PRID=1781703>

5. Research paper on “Lorentz Force Evolution Reveals the Energy Build-up Processes during Recurrent Eruptive Solar Flares” is featured on RHESSI Science Nugget (No. 364, [http://sprg.ssl.berkeley.edu/~\).2019](http://sprg.ssl.berkeley.edu/~).2019))
6. Research paper on “Evolution of the Coronal Cavity From the Quiescent to Eruptive Phase Associated with CME” is featured on the AAS Nova website (<https://aasnova.org/2019/05/06/featured-image-tracking-a-hole-from-the-sun/> and in PROBA2 Science Center news (<http://proba2.oma.be/CoronalCavity>), 2019
7. Research paper “[Morphological and magnetic imprints of confined and eruptive flares in the largest sunspot group of Solar Cycle 24](http://hmi.stanford.edu/hminuggets/?p=2333)” featured in HMI Science Nugget (No.90, <http://hmi.stanford.edu/hminuggets/?p=2333>)
8. "Presence of solar filament plasma detected in interplanetary coronal mass ejections by in situ spacecraft" by Sharma and Srivastava, 2012, was selected for display during the European Space Weather week meeting ESWW10 in Antwerp (Belgium) in Nov 2013, by the JSWSC as one of the most downloaded article of the Journal.

International Collaborations

1. **Guest Investigator** on ESA’s Proba2 mission on “Using SWAP Observations for Optimising The Magnetic Field Extrapolation and Solar Wind Velocity Prediction Models with funding of *Euro 5000*.”
2. **Principal Investigator**, Indo-US IUSSTF proposal on Virtual Network Centers on “Understanding the CME propagation and its internal structure in the interplanetary space to predict Bz”, PI (US), N. Gopalswamy NASA/GSFC, co-PI N. Pogorelov (US), 2021-2024
3. **Principal Investigator**, India-Uzbekistan joint project on “Space Weather consequences of Coronal Mass Ejection”, 2021-2024 with Zavkiddin Mirtoshev (PI), Samarkand State University, Uzbekistan
https://cosparhq.cnes.fr/assets/uploads/2025/02/Report_Samarkand.pdf
4. Member, International Space Science Institute (ISSI team), on “Understanding the Stealth CMEs & Problem Geomagnetic Storms”, 2017-2019, Team leader N. Nitta & T. Mulligan (11 others) <http://www.issibern.ch/teams/geomagstorm/index.php/team-members/>
5. **Guest Investigator**, ESA-Proba2 mission for study in coronal cavities using SWAP observations, 2017-2018
6. **Member**, International Study for Earth-Affecting Solar Transients (ISEST) program 2014-2018 with J. Zhang (Chair, USA), B. Vršnak (Co-Chair, Croatia), A. Asai (Japan), P. Gallagher (Ireland), A. Lara (Mexico), N. Lugaz (USA), C. Mostl (Austria), A. Rouillard (France), N. Srivastava (India), Y. Yermolaev (Russia), Y-M Wang (China), D. Webb (USA)
<http://solar.gmu.edu/heliophysics/index.php/ISEST>
7. **External collaborator** on Coronal Mass Ejections and Solar Energetic Particles: forecasting the space weather impact (COMESSEP), Principal Investigator: Norma Bock Crosby (with 7 European and 1 US Co-Investigators) ESA- FP7- SPACE-2010-1 (European Commission), 2011-2014 (<http://www.comesep.eu/>)
8. **Principal Investigator**, “Study of pre-eruptive and eruptive phase of filaments/ prominences in EUV using SWAP & LYRA on PROBA2”, Guest Investigator program of PROBA2, Royal Observatory of Belgium, Brussels, June-July 2013
9. **Co-investigator** for the NSF project “Collaborative Research on Testing a New Concept for the Long-term Build-up to Coronal Mass Ejections”, ATM0837915. (Sara Martin (PI) O. Engvold, Y. Lin, T. Forbes, Y. E Litvinenko, O. Panasenco, N. Srivastava, K.S. Balasubramanian, P. Bellan, T. Berger, M. Velli, October 2008- October 2011
10. **Co-investigator** for the Proposal, NSF Program for Rapid Awards for Augmenting High Resolution Data for NSF Grant 0837915 for Collaborative Research: Testing a Concept for the Long-Term Build-up to Coronal Mass Ejections And NSF SHINE Grant 0852249 on “How New Active Regions Trigger Erupting Filaments and Coronal Mass Ejections (CMEs)” 2010, (Sara Martin (PI) and 5 CoIs).
11. **Co-investigator** in Indo-French project “*Transient Phenomena in the Sun-Earth System*” by CEFIPRA, in Dec 2007-2010

National Collaborations

1. Co-PI, Project Team for **Venus Radiation Environment Monitor (VeRad)** Experiment of PRL of VOM of ISRO.
2. Member, Science Team of **MAG, ASPEX and SUIT** instruments on Aditya-L1 mission
3. ISRO-RESPOND project co-PI on “Solar Flares: Physics and forecasting for better understanding of space weather” by Durgesh Tripathi, IUCAA 2023-2026
SRO-RESPOND project co-PI on “Automatic detection of solar features such as sunspots, filaments and extraction of their attributes” by -M S Sudhakar, VIT, Chennai, Dec 2020-Nov2023
4. Contributions made to the proposal on *Multi-Application Solar telescope (MAST)* –**P. Venkatakrishnan & Team**, submitted to PRL, July 2004.
5. **Principal Investigator** “*Pre-eruptive phase of solar filaments*”, Principal Investigator of Indian Space Research Organisation (ISRO) funded, Climate and Weather of Sun Earth System (CAWSES) project, March 2005-March 2008.
6. **Co-Investigator**, Center for Computational Space Sciences, A proposal for a center of excellence, to the Ministry of Human Resource Development, Government of India **Principal Investigator:** Dr. Dibyendu Nandi, other **Co-Investigators:** R. K. Nayak, P. Subramanian, K. Sankarasubramanian, D. Banerjee, S.P. Rajaguru, 2011-2014

International Scientific Meetings Organization (since 2009)

1. Co-Convener of a session at the European Geophysical Union (EGU) General Assembly, Vienna, 19-24 April 2009.
2. Co-Chair of poster session ST5/NH8. on “Space Weather and its effects on terrestrial and Geospace environments” in European Geophysical Union (EGU) General Assembly, Vienna, May 2-7, 2010.
3. Chairperson, Space weather session, 39th COSPAR General Assembly, Mysore, 14-22 July, 2012
4. Chairperson, the tutorial session, ISSTP 2012, Pune, 5-9 November, 2012
5. Convener, session on “New and ongoing initiatives in ground-based solar observations”, European Geophysical Union Meeting, Vienna, 7-12 April, 2013.
6. Member, scientific organising committee, IAU symposium 300, on “Nature of prominences and their role in Space weather”, Paris, June 10-15, 2013.
7. Chairperson, Session 2.1 at the IAU Symposium 300, on “Nature of prominences and their role in Space weather”, Paris, June 10-15, 2013.
8. Member, scientific organising committee, International Study for Earth-Affecting Solar Transients (ISEST) program of SCOSTEP, June 16-20, 2013, Hvar, Croatia
9. Working group leader jointly with Christian Moestl for working group on “Optimal combination of in-situ and remote sensing”, Seventh solar information processing (SIP) workshop, La Roche den Ardenne, Belgium, August 18-21, 2014.
10. Member, International Study for Earth-Affecting Solar Transients (ISEST) program of SCOSTEP-VARSITI, 2014- 2018
11. Member, SOC, 3rd Asia-Pacific Solar Physics Meeting, Seoul, Korea, November 3-6, 2015.
12. Session Chair in W4 session on “Results from New Solar Telescope (NST) at BBSO”, 3rd Asia-Pacific Solar Physics Meeting, Seoul, Korea, November 4, 2015.
13. Member, SOC, ISEST/SCOSTEP meeting, Mexico City, Mexico, October 26-30, 2015
14. Member, LOC, Science for Space Weather, Goa, January 24-29, 2016
15. SOC member, International Study of Earth Affecting Transients (ISEST) 2017, at Jeju island, South Korea, 18–22 September, 2017.
16. SOC member, 4th Asia Pacific Solar Physics Meeting, Kyoto, Japan, 7–10 November, 2017.
17. SOC member, IAU symposium 340 on “Long-term datasets for the understanding of solar and stellar magnetic cycles”, Jaipur, 19–23 February, 2018.
18. Session Chair, Indices of Solar Cycle from Photosphere to the Heliosphere, IAU symposium 340, Jaipur, 19-23 February, 2018.
19. Member of the National Advisory Board, 6 th PSSI Plasma Scholars Colloquium 2018, August 24-26, 2018, SMIT, Sikkim
20. Session Chair, Session-9 Basic Plasma 6 th PSSI Plasma Scholars Colloquium 2018, August 24-26, 2018, SMIT, Sikkim

21. Session Chair and also SOC member, International Study of Earth Affecting Transients (ISEST), at Hvar island, Croatia, 24–28 September, 2018
22. SOC member, D2.4 Session, Sun-Heliosphere Connection Events: Origin, Propagation, Impact & Prediction, COSPAR assembly, Sydney August 15-22, 2020
23. SOC member, E2.3 Session, Driving Solar Eruptions, COSPAR assembly to be held in Sydney August 15-22, 2020
24. Member SOC & Course Lecturer, Capacity Building Workshop of COSPAR on CORONAL AND INTERPLANETARY SHOCKS, Jan 2020
25. Session Chair, Scientific Session, September 7, 2019 COSPAR capacity building workshop, Jan 6-17, 2020
26. Member, SOC & Member LOC, STP-15, organised during February 21-25, 2022
27. Member, Convener, COSPAR 2022 Session E2.2 on Catalyzing progress in our understanding of the physics of solar and stellar eruptions via data-driven simulations
28. Session Chair in three sessions at 15th Quadrennial Solar-Terrestrial Physics Symposium (STP-15), organized at IIG, Mumbai, February 21–25, 2022 (Online)
29. IUSSTF project meeting, June 4-18, 2023, GSFC/NASA, USA
30. IUSSTF project meeting, Jan 8-19, 2024. Krea University, Sricity
31. Organising biweekly progress meetings of the IUSSTF projects in online mode since March 2022.
32. Member, SOC COSPAR capacity building workshop at Samarkand State University, 19-30 Aug 2024
33. Chaired two scientific sessions during the COSPAR capacity building workshop at Samarkand State University, during August 19-30, 2024. Chaired and organized the concluding session of the COSPAR workshop on August 30, 2024
34. Served as Mentor to a group of 6 participants from different countries for one week. Each group analyzed observations of two solar eruption events associated with type II radio bursts and presented their results on the last day of the workshop.
35. Session Chair at “Solar Cycle Variability: From understanding to making prediction”, jointly Organized by IIT BHU and ARIES, Nainital, 14 - 18 October, 2024
36. Member SOC, “Sun, Space weather and solar-stellar connection” organised by Indian Institute of Astrophysics (IIA) January 21 – 24, 2025 commemorating 125 years of the Kodaikanal Solar Observatory.
37. Session Chair, in “Shocks and Particle Acceleration and Transport in IP Medium,” in the “Sun, Space weather and solar- stellar connection”, IIA KSO125 meeting, Bangalore, January 20-24, 2025
38. Member, SOC, ISRO-ESA Heliophysics Workshop on Aditya-L1, Solar Orbiter and Proba-3, 19th - 23rd January, 2026, Thiruvananthapuram, India
39. Co-Chair, SOC, "Exploring the Sun at High-Resolution: Present Perspectives and Future Horizons", to be organized on the 50th anniversary of the Udaipur Solar Observatory, February 10-13, 2026.

National Scientific Meetings Organisation (Since 2009)

1. Member, SOC, Astronomical Society of India meeting ASI-2009 to be held in Bangalore, 2009.
2. Member, National Advisory committee of the SERC school on Space Weather, IIG Mumbai April 2010.
3. Session Chair at the Technical session, at the conference for women in ISRO, March 8, 2011
4. Session Chair at the IUCAA workshop on the Physics of the solar transition region and corona on 6th September, 2011
5. Session Chair at the Technical session, “International workshop on Nano Physics and Astrophysics”, Raipur, February 19-21, 2012
6. Session Chair, Sun and Solar System, Astronomical Society of India meeting, Hyderabad, 5–9 February, 2018.
7. Co-Chair and Course Lecturer, Scientific Organising Committee, Space Weather Course at PRL, November 2019
8. Co-Chair, Scientific Organising Committee, Astronomical Society of India meeting, IISER Tirupati, Feb 13- 17, 2020.
9. Organisation: ASI workshop 4: Ground based instrumentation for Solar Astronomy, during the 38 th Astronomical Society of India Meeting held on 13 February 2020, Organisers: Nandita Srivastava, Shibu K. Mathew, A. Raja Bayanna, B. Ravindra and Dipankar Banerjee
10. Session Chair, Sun and Solar System Session, ASI meeting, IISER, Tirupati, Feb 13-17, 2020

11. Session Chair, Thesis presentations, ASI meeting, IISER, Tirupati, Feb 13-17, 2020
12. Judge, Poster presentations, Sun and Solar System Session, ASI meeting IISER, Tirupati, Feb 13-17, 2020
13. Co-Chair of Scientific Organising Committee of the Astronomical Society of India for the year 2021 (online)
14. Initiated in 2021, annual Dr. Arvind Bhatnagar Memorial Lecture to be organised by USO every year in November.
15. SOC member, PRL First space weather conference, January 11-12, 2022
16. Chair, PRL ka Amrut Vyakhyaan Committee since July 2021, organized 75 Vyakhyaans on the Platinum jubilee of PRL
17. Member, Organising committee, Workshop on Long-term Study of the Solar Activity by Bidya Binay Karak (IIT (BHU)), Bibhuti Kumar Jha (ARIES), Dipankar Banerjee (ARIES), Nandita Srivastava (USO/PRL) at ASI2022
18. SOC member, PRL First space weather conference, January 11-12, 2022
19. Co-chair, SOC, ASI 2022, 40th Meeting of the Astronomical Society of India, IIT Roorkee during March 25– 29, 2022
20. Organiser, ASI Workshop 3 - CME propagation in the interplanetary space to predict Bz and space weather impact, January 30, 2024, with Piyali Chatterjee (IIA, Bangalore) and Prasad Subramanian (IISER, Pune), and Nat Gopalswamy (NASA/GSFC)

Talks at International meetings since 2009 (42 talks)

2025

1. Presentation on National ISWI Activity in ISWI Steering Committee Meeting, Vienna, on 7 February 2025 (online)
2. Oral presentation on "Unveiling CME Dynamics: Rare rotations in the Heliosphere", at the 5th Meeting of the Solar and Heliospheric Physics Italian Community (SoHe-5), September 10 - 12, 2025 University of Calabria in Rende (CS), Italy.
3. Invited talk on "Unveiling CME Dynamics in the Heliosphere" at The Variable Sun, Past, Present, and Future Perspectives meeting, Thiruvananthapuram, 13th - 17th October, 2025
4. *Plenary talk on "Sun to Earth propagation of 21 April 2023 CME and its space weather impact"* ESWW2025, Umea, Sweden (online mode) Oct 27-31, 2025

2024

5. Presentation on National ISWI Activity in ISWI Steering Committee Meeting, Vienna, on 5-6 February 2024 (online)
6. Course lecturer for the COSPAR capacity building workshop in COSPAR Capacity building workshop August 19- 30, 2024
7. Gave 3 lectures (i) Coronal Mass Ejections- Introduction, (ii) CMEs and Space Weather Impact (iii) Ground- based solar observations
8. Oral presentation on "Influence of solar wind medium on the propagation of the Earth Impacting CMEs", IAUS388, at Krakow, Poland , May 5-9, 2024

2023

9. Presentation on National ISWI Activity in ISWI Steering Committee Meeting, Vienna, on 10 February 2023 (online)
10. Invited talk on "Coronal Mass Ejections (CMEs) and their impact on Space Weather" in the international symposium titled: "From the Universe Back to Earth; Developing Astronomy to Meet Today's Natural Challenges" on 100 years of Bosscha Observatory, Indonesia, October 3-7 , 2023 (Online)
11. Invited talk on "India-Uzbekistan Collaboration in Astronomy: From medieval to recent

times" in the international conference on "Ali Qushji – An outstanding ambassador of the scientific school of Ulugh Beg" celebrating the 620th anniversary of Ali Qushji's birth and the 80th anniversary of the Uzbekistan Academy of Sciences, September 21-22, 2023 (online)

12. Oral presentation on "Rotation of a stealth CME of October 5, 2012 in the heliosphere" in the Solarnet-S3 conference held in Venice, Italy, September 11-15, 2023

2022

13. "Estimating the magnetic vectors of ICMEs observed by radially aligned multiple spacecraft using INFROS model", October 24-28, 2022 at the 18th European Space Weather Week Workshop (ESWW2022) **(Contributory, online)**
14. "Modelling the magnetic vectors of ICMEs detected by radially aligned multiple spacecraft using INFROS" Session E2.1, July 19, 2022, COSPAR 2022, **(Contributory, online)**

2020

15. **Invited** lectures on (i) CME Initiation (ii) CME propagation in 3d space, COSPAR capacity building workshop, Jan 6-17, 2020

2018

16. "Interplanetary and geomagnetic signatures of stealth CMEs", April 16-20, 2018 ISSI workshop, Bern Switzerland **(Contributory)**
17. "Evolution of coronal cavities leading to CMEs", September 24-28, 2018, ISEST 2018, workshop, Hvar island, Croatia **(Contributory)**

2017

18. "Interplanetary & Geomagnetic Consequences of Interacting CMEs", IAUS 335 on Space Weather of the Heliosphere, July 17-21, 2017, University of Exeter, UK. **(Contributory)**
19. "On the dynamics of the largest active region of the solar cycle 24, ISEST 2017, Jeju island, South Korea, September 18-23, 2017 **(Contributory)**

2016

20. "Study of interacting CMEs using STEREO/SECCHI observations", Science for Space Weather, Goa, 24-29 January, 2016. **(Invited)**
21. "Recent Observations from the Multi-Application Solar Telescope (MAST) at Udaipur Solar Observatory", XIV Astrophysical Colloquium, Hvar Observatory, Croatia, 26-30 Sept, 2016. **(Invited)**

2015

22. *Three talks at ISEST workshop*, Mexico city, Oct 26-30, 2015
23. Uncertainties involved in understanding the nature of collision of CMEs in the heliosphere **(Contributory)**
24. Kinematics and consequences of interacting CMEs observed by STEREO/HI **(Contributory)**
25. Validation of the CME arrival time and geomagnetic forecast alerts under COMESEP **(Contributory) 2014**
26. "Solar optical instrumentation", DWIH Indo-German winter school on Astrophysics, TIFR, Mumbai, 3-7 November, 2014. **(Invited)**
27. Kinematics of CMEs using SECCHI/HI observations", SIP workshop, Belgium August 18-21, 2014 **(Contributory)**

2013

28. "Estimating arrival time of Earth-directed CMEs at in-situ spacecraft using COR and HI observations from STEREO", ISEST workshop, June 17-20, 2013 Hvar, Croatia **(Invited)**

29. “On the role of solar filament plasma remnants in ICMEs leading to geomagnetic storms”, 2nd Asia Pacific Solar Physics Meeting, Hangzhou, China, October 22-26, 2013 (Invited)

2012

30. “On the estimation of true speeds and arrival times of CMEs”, September 6, 2012., BIRA-IASB, Brussels, Belgium (**Contributory**)

2011

31. “STEREO observations of CMEs: Kinematics and influence on space weather”, Space Climate symposium 4 on “, Jan 17-21, 2011(**Invited**)
32. 3D Reconstruction of CMES: Implications on Prediction of the Arri3D Reconstruction of CMES: Implications on Prediction of the Arrival Time” , AOGS meeting , August 8-12, 2011,Taipei, Taiwan (**Invited**)
33. On the 3 D reconstruction of CMEs using SECCHI/STEREO observations”, AOGS meeting Hyderabad, July 5-9, 2010. (**Invited**)
34. “Kinematics of Two Eruptive Prominences observed by EUVI/STEREO”, Prominence Research Observations and Models (PROM) workshop, La Palma, Canary Islands, Nov 30-Dec 2, 2010 (**Invited**)
35. “Acceleration of CMEs and Prominences Observed from STEREO” (ST16 session), AOGS 2011, Taipei,Taiwan (**Contributory**)
36. “Estimation of arrival time of CMEs from STEREO observations” at Asia Pacific Solar Physics Meeting, APSPM, Bangalore, March 22-25, 2011(**Contributory**)
37. “Automated Detection of Filaments & Their Disappearance Using Full-Disc H α Images”, COMESSEP project meeting, SIDC, Royal Observatory of Belgium, October 6, 2011(**Contributory**)
38. “3D reconstruction and kinematics of eruptive prominences using STEREO observations”, Oral presentation at the Astronomical Society of India,Feb 23-25, 2011(**Contributory**)

2009

39. Estimation of true speed and direction of propagation of CMEs using SECCHI (STEREO) observations”,EGU General Assembly, Vienna, 19-24 April, 2009 (**Invited**)
40. “Prediction of space weather based on a statistical model”, EGU General Assembly 2010, 2-7 May, 2010 in Vienna, Austria. (**Invited**)
41. “Estimation of true speed and direction of propagation of CMEs using SECCHI/STEREO observations” EGU General Assembly, Vienna, April 19-24, 2009 (**Contributory**)
42. “3D reconstruction of the leading edge of the May 20, 2007 partial halo CME”, STEREO3/SoHO22 meeting, Bournemouth, England, April 27-May 1, 2009. (**Contributory**)

Talks given at National Meetings/Conferences since 2009 (42 talks)

2025

1. “Research Area of Physical Research Laboratory (PRL)” at the ISRO Academia Connect for Central region (Chhattisgarh Madhya Pradesh and Uttar Pradesh) at MANIT Bhopal, May 22, 2025
2. “Research Area of Physical Research Laboratory (PRL)” ISRO Academia Connect in the Northern region at NIT Kurukshetra, April 8, 2025.
3. “CMEs & Space Weather” CSSTEAP course on solar physics, June 24, 2025 (online)
4. “Research areas of PRL”, December 16, 2025 at ISRO Headquarters

2024

5. “Ground-based Solar and Geomagnetic Observatories of the World” in the Space weather training course for the Indian Armed Forces Met Officers, 15-26 July 2024 at CESSI, Kolkata (online mode)

6. “CMEs and space weather impacts”, Online short course in Solar Physics , September 2-6, 2024, organized by CSSTEAP
7. “Variable Sun: CMEs and space weather” in the 2nd workshop on Space weather science and opportunities, IIT Roorkee, 5-6 October 2024
8. “The Sun’s Role in Driving Space Weather” in the USO-PRL Solar Physics Winter School 6-10 December 2024

2023

9. Invited talk on “Coronal Mass Ejections” in ISRO-STP workshop on Sun-Planet Interactions: A Space Weather Perspective During September 25-29, 2023, PRL, Ahmedabad
10. Invited talk on “CME-CME interaction & its in situ signatures”, SIMA, SPL, Trivandrum, April 11-13, 2023
11. “Filaments dynamics such as oscillations and instability” —3rd *SUIT science meeting* October 17-19, 2023 (online)
12. “CMEs and space weather” in the ONLINE CSSTEAP SHORT COURSE ON “SOLAR PHYSICS” UN CSSTEAP, May 23-27, 2023 (online)

2022

13. Invited talk in Plenary session on “Observing solar activity from ground and space” during National Space Science Symposium, January 31- February 4, 2022 3
14. ISRO-Academia day, Presentation on ISRO-RESPOND basket projects of Space Sciences, March 15, 2022
15. Invited talk on “Forecasting the space weather “ in Workshop on science and technology, Pt. Ravishankar Shukla University, Raipur during 15-18 Oct 2022
16. Invited talk in “Akash for life” Conference, IIRS, Dehradun organized by ISRO. “Monitoring the Solar Activity from Ground-based instruments”, November 5-6. 2022

2020

17. Invited lectures on (i) CME Initiation (ii) CME propagation in 3d space, COSPAR capacity building workshop, Jan 6-17, 2020
18. Talk on , Interplanetary Flux ROpe Simulator (INFROS) for predicting the magnetic-field vectors of ICMEs, ASI meeting, Feb 13-17, 2020

2019

19. Invited talk on “ New challenges in Solar Physics Research” , Young Astronomers Meet, 23 September 2019
20. Invited Lectures on (i) Solar Origins of Space Weather (ii) Coronal Mass Ejections in Space Weather, Course held at PRL, November 13-26, 2019

2018

21. “Solar physics research using ground and spacebased observations”, Structured Training Program (STP), PRL, Ahmedabad, 5–9 March, 2018. **(Invited)**
22. Interaction between Coronal Mass Ejections and Impact on Space Weather, 6 th PSSI Plasma Scholars Colloquium 2018, Department of Physics, SMIT, Sikkim, August 24-26, 2018 **(Invited)**

2017

23. “Preliminary observations with Multi-Application Solar Telescope (MAST) at Udaipur Solar Observatory”, 35th Annual Meeting of ASI, Jaipur, 6-10 Mar, 2017 **(Invited)**

2016

24. “Multi-Application Solar Telescope: Study of solar activity using recent observations”, Technical Seminar in Hindi, PRL, Ahmedabad, 29 Apr, 2016 **(Invited)**
25. “CMEs & Space weather”, UN-CSSTEAP Course on Space Weather, PRL, Ahmedabad, 9 May-8 Jun, 2016. **(Invited)**
26. . “Solar Instrumentation”, UN-CSSTEAP Course on Space Weather, PRL, Ahmedabad, 9 May-8 Jun, 2016. **(Invited)**
27. “STEREO observations of CMEs”, SCOSTEP/ISWI school, Sangli, 10 Nov, 2016 **(Invited)**

28. “Solar Activity”, IUCAA Solar Physics Workshop, Kothamanglam, 30 Nov – 2 Dec, 2016 **(Invited)**

2015

29. “CME-CME interaction: kinematics and consequences”, Astronomical Society of India meeting, NCRA, Pune, 17-20 February, 2015. **(Invited)**
30. “Prominence studies with the Solar Ultraviolet Imaging Telescope”, SUIT meeting, USO, Dec 16, 2015 **(Contributory)**
31. Coronal Mass Ejection and Solar Energetic Particles (COMESSEP): Forecasting the space weather impact, at USO Foundation Day symposium, September 21, 2015 **(Contributory)**

2014

32. “Kinematics and consequences of CMEs”, Brain Storming Session on Indian Space Science Initiatives, Institute of Radio Physics and Electronics, Calcutta, Feb 12-13, 2014 **(Invited)**

2012

33. “Challenges on predicting the space weather”, International workshop on Nano Physics and Astrophysics, Pt. Ravishankar Shukla University, Raipur, February 19-21, 2012 **(Invited)**
34. “Solar Activity”, UN school M.Tech course, Ahmedabad, 9 August 2012 **(Invited)**
35. “CMEs and ICMs”, Invited Tutorial in ISSTP 2012, IISER Pune, 5-9 November, 2012 **(Invited)**
36. “Recurrent eruptions of a large filament observed during August 2012”, ISSTP 2012, Pune, Nov 5-9, 2012 **(Contributory)**

2011

37. “3 D reconstruction and kinematics of eruptive prominences using STEREO observations”, Astronomical Society of India, Feb 23-25, 2011 **(Contributory)**

2010

38. SERC School lectures on Space Weather, IIG Mumbai Apr 7-27, 2010
39. lectures (i) Coronal mass ejections (ii) Space Weather Prediction: Solar Perspective
a. (iii) Use of statistical models for predicting geo-effective events **(Invited)**
40. “Solar Phenomena and their geoeffectiveness”, CAWSES Workshop on Space Weather and Space Climate at PRL 27 – 28 April 2011 **(Invited)**
41. “Kinematics of two eruptive prominences observed from EUVI onboard STEREO”, Workshop on the Physics of the solar transition region and corona on 6th September, 2011, IUCAA, Pune **(Invited)**

2009

42. “Solar origins of geoeffective events”, CAWSES Phase II Planning meeting, NARL, Gadanki, July 9-11, 2009 **(Contributory)**

Talks given at institutes/university since 2008 (17 Talks)

2024

1. Gave a BIRA-IASB seminar on “A Space Weather Modelling Framework to estimate Dst Index at 1 AU” at Belgian Institute for Space Aeronomy, Brussels, on May 2, 2024
2. Talk at SPL, Thiruvananthapuram, on “Heliospheric Propagation of CMEs”, on Dec 9, 2024

2023

1. Talk on “Coronal mass ejections and their Space weather effects” for students of the Institute of Engineering Physics of Samarkand State University, Uzbekistan, October 31, 2023
2. Talk on “Recent developments in Solar and Heliophysics Research” for the faculty and staff of the Institute of Engineering Physics of Samarkand State University, October 31, 2023

2021

3. “Sun and Space Weather” during World Space week, 6-10th October 2021, with theme “Women in Space” organised by Department of Aerospace Engineering-SRMIST, SRM University, Chennai
4. Online Lectures on CMEs and space weather given to Masters and Undergraduate students of Samarkand State University, Uzbekistan as part of Indo-Uzbek project in December 2021

2016

5. “Current Research and facilities at Udaipur Solar Observatory”, IGAM, University of Graz, Austria, June 24, 2016

2015.

6. “Space Exploration: ISRO’s efforts”, Sunrise Group of Institutions, Udaipur, 15 September, 2015.

2014

7. “Evolution, interaction and impact of coronal mass ejections”, colloquium at Center of Excellence in Space Sciences, India (CESSI), IISER Kolkata, 10 April, 2014.
8. “Solar optical instrumentation”, Two lectures in space astronomy course, Center of Excellence in Space Sciences, India (CESSI), IISER Kolkata, 10-11 April, 2014

2013

9. “Multi-Application Solar Telescope (MAST) at Udaipur Solar Observatory”, Yunnan National Astronomical Observatory, Kunming, China, October 29, 2013
10. “Study of eruptive filaments using SWAP & LYRA observations”, Royal Observatory of Belgium, Brussels, Belgium, August 8, 2013

2010

11. “Coronal mass ejections: 3 D observations from SECCHI/STEREO”, the Curtin Institute of Radio Astronomy, Perth, Australia, 14 January, 2010.
12. “Automated Detection of Filaments and Their Disappearance Using Full-Disc H-alpha Images” on 28 April 2010 at the Solar-Terrestrial Centre of Excellence, Royal Observatory of Belgium, Brussels.

2009

13. Colloquium on “Coronal Mass Ejections: New views from STEREO“, September 23, 2009 at the Physical Research Laboratory, PRL, Ahmedabad, “Coronal Mass Ejections: New views from STEREO“

2008

14. “Coronal Mass Ejections from the Sun in 3-D: Early Results from the Coronagraph COR1 aboard STEREO“, *Colloquium on Jan 29, 2008 at Indian Institute of Astrophysics Bangalore*
15. “Use of Statistical Models for Predicting Geo-effective Events”, *Solar Influences Data Center, Brussels, Belgium, November 6, 2008,*

Project Students supervised during 2009-2026 (36 projects)

1. **Ayan Patra**, “Characterizing the Magnetic Field and Plasma Properties of Isolated and Interacting ICMs”, Central University of Andhra Pradesh, Jan-May 2026
2. **Parthib Banerjee**, “Understanding propagation of CMEs”, IISER Berhampur, Aug 2024-Mar 2025
3. **Shweta Ghare**, “Understanding The Earth-Impacting CMEs”, Fergusson College, Pune, 2025
4. **Diyorbek Pulatov**, “Composition of ICMs”, at Samarkand State University, under the Indo-Uzbek project, 2025
5. **Shanmugha Balan**, BITS Pilani, “Development of Forecasting Tool for Space Weather Impact of CMEs”, December 2023.
6. **Ashutish Dash**, Central University of Haryana, “Understanding The Earth-Impacting CMEs”, June 2023
7. **Varun Kelkar**, Fergusson College, Pune, “3D reconstruction and arrival time prediction of the geo-effective CMEs”, June-July 2022
8. **Ms. Bhavna Agarwal**, St. Xavier’s College, Mumbai, MSc. Dissertation thesis on "Influence of fast solar wind in the propagation of coronal mass ejections", January-April, 2021
9. **Mr. Stephen Dsouza**, St. Stephen’s College, New Delhi, “Forecasting the Arrival of Interplanetary Coronal Mass ejections using a Drag Based Model”, Sept -Dec 2021 under SHE- INSPIRE programme of DST.
10. **Ms. Urmi Doshi**, M. P. Birla Institute of Fundamental Research. Bangalore, India, “Statistical Study of ICMs in solar cycle 23 & 24”, Jan-July 2021.
11. **Sandeep Kumar**, PRL JRF, Coronal Cavities, April-June, 2021
12. **Sandeep Dubey**, PRL JRF, “SHEATH ACCUMULATION PROPAGATION MODEL OF CME” August-November 2021
13. **Sandeep Kumar**, PRL JRF, Parametric Study of Empirical Modelling of Solar Wind, August-November 2021
14. **Kunjali Dave**, C U Shah University Surendranagar, Gujarat "Study of Interplanetary and Geomagnetic Signatures of halo CMEs Observed During 2011" Pilot Project Report submitted to Centre for Space Science and Technology Education in Asia and the Pacific (CSSTEAP), 2018
15. **Miral Bhatt**, C U Shah University, Surendranagar, Gujarat “A study of Stealth CMEs and associated ICMs”, Pilot Project Report Submitted to Centre for Space Science and Technology Education in Asia and the Pacific (CSSTEAP), 2018
16. **Zavkiddin Mirtoshev**, Department of Physics, Samarkand State University Samarkand, Uzbekistan “Interplanetary and geomagnetic consequences of interacting coronal mass ejections” as NAM S & T Centre Research Training Fellow for Developing Country Scientists (RTF-DCS) for January-July 2017
17. **Prabir Mitra**, JRF PRL, “Stealth CME: Coronal Mass Ejection without Low-Coronal Activities”, PRL course work project, 2017
18. **Sushree Sangeeta Nayak**, JRF, PRL, “Validation of CME geomagnetic forecast alerts under the COMESEP alert system”, PRL course work project, 2017
19. **Aditi Jaiswal**, MSc, Applied Physics, Sardar Vallabhbhai National Institute of Technology, Surat, “Preliminary analysis of solar images obtained by MAST telescope”-Dec 2017
20. **Ranadeep Sarkar**, JRF, PRL, “Evolution of Active Region NOAA 12192 on the Sun” PRL course work project, Jan-April 2016
21. **Archita Rai**, JRF, PRL” Study of identification of interplanetary coronal mass ejection at L1 & STEREO A & B”, PRL course work project Jan-April 2016
22. **Rahul Gupta**, M.Sc. (Applied Physics), Indian School of Mines, Dhanbad, Temporal relationship between onset time of CMEs, filament disappearance and EUV flux peak, May-July 2016

23. **Satya Prakash Mishra**, M.Sc. Applied Physics, Central University of Jharkhand, Ranchi, “Observations of ICMEs using WIND spacecraft”, May-July 2015
24. **Sushma Sangwan**, MSc Physics, JECRC University, Jaipur, “Automated detection of filament disappearance in H-alpha images”, May-July 2015
25. **Yamini Khodia**, MSc. Physics, IIT Roorkee, titled “Validation of COMESEP (Coronal Mass ejections and Solar Energetic Particles) tool” Aug-Dec 2015 (Pursuing PhD at IIT BHU)
26. **Talwinder Singh**, MTech Engineering Physics, IIT BHU, Varanasi, “Determination of Areas of CMEs using Two STEREO viewpoints” IIT(BHU) Varanasi, Dec 2013-Jan 2014
27. **Sanjay Saini**, JRF, PRL, A comparative study of in situ signature of two eruptive filaments”, Jan-April, 2013
28. **Puneet Jain**, Integrated M.Sc. Physics, IIT, Roorkee, “Study of angular width and area enclosed by coronal mass ejections”, May 15-July 15, 2013
29. **Talwinder Singh**, MTech Engineering Physics, IIT BHU, Varanasi, “Determination of True mass and Propagation Direction of CME's using Two STEREO viewpoints” IIT(BHU) Varanasi, Dec 2013-Jan 2014
30. **Arun Kumar Pandey**, 2012, JRF, PRL, “Prediction of arrival of ICMEs at the Earth and Mars” Course work project Dec 2011-Jan 2012
31. **P. V. Arushi**, Amrita Vishwa Vidyapeetham, Kerala, “The 3D Reconstruction of CME Using STEREO, Implications on Arrival Time Prediction”, April 17- May 2011
32. **Rahul Sharma**, MLSU, Udaipur, “Identification of solar filament material in ICMEs, January-May 2011
33. **Nimesh Sinha**, Applied Physics, Indian School of Mines, Dhanbad, “Onset time of Filament eruptions “2011, Dec 2011
34. **Rajeev Ratn Jaiswal**, JRF, “Signatures of solar filaments in Interplanetary CME (ICME)”, PRL August - October, 2010
35. **P. V. Arushi**, Amrita Vishwa Vidyapeetham, Kerala, “Estimation of true speeds of CMEs using STEREO data”, May-July 2010
36. **Mr. Desai Shivam M. and Mr. Nisarg K. Bhatt**, BE Engineering, Sanckalchand Patel College of Engineering, Visnagar, entitled “AUTOMATIC DETECTION OF SOLAR FILAMENTS USING FULL DISK H α IMAGES” Jan-April 2009.(Engineering Trainees)

Project Associates

1. **Nikhat Jahan**, CMEs, eruptive filaments and geomagnetic storms data base development 2012-2013, (1year)
2. **Divya Mathew**, Web-based application for USO data archival & retrieval, 2009-2010 (1 year)

Other Responsibilities at Udaipur Solar Observatory/PRL

- (1) Chairperson, Public Outreach Committee, USO, since 2016-2022
- (2) Member, Internal Complaints Committee, PRL since 2010
- (3) Member, Official Language Implementation Committee, PRL since 2017
- (4) Decadal Review of Solar Physics Group, January, 2019
- (5) Organised MAST Telescope Inauguration Ceremony Meeting, on August 4, 2015
- (6) Organised Udaipur Solar Observatory foundation day in 2015, 2018, 2019, 2020, 2021
- (7) Organised SUIT (Aditya) meeting, December 15-16, 2015
- (8) Deputy Head (Administration) at Udaipur Solar observatory, 2015-2022
- (9) Initiated Dr. Arvind Bhatnagar Memorial Lecture to be held annually at USO-PRL, Member of the committee since 2021
- (10) Chair, PRL ka Amrut Vyakhaan Committee since July 2021, organised 116 lecture series <https://www.prl.res.in/prl-eng/prlkaamrutvyakhaan>
